TOWN SLICES ESTIMATES TO HOLD MILL RATE AT 51

LAC LA BICHE — The town council met April 29 to tackle the task of fixing estimates for the current year and deciding whether the rate of 51 mills on the dollar, which has stood for the past two years, would be sufficient to meet the increasing demands on the town's coffers. From 7:30 p.m. until midnight proved to be too short a time to finish the the work to be done and the meeting was adjourned until the following night, when the rate was struck at 51 mills for the third year in a row.

Some of the highlights in the budget are: a substantial appropriation for parks development, an amount for ditching in the west end of Town, a sum for completion of the Council Chambers in the Town Hall.

Capital expenditure for sidewalks was reduced to less than half last year's figure, and no appropriation was made for capital expenditure on streets, except for $500 worth of culverts.

Amounts budgeted for various departments were as follows: general government, $6,630.00; protection to person and property, $9,525.00; public works, (exclusive of capital expenditures), $9,750.00; sanitation and waste removal, $5,100.00; health, $12,240.00; social welfare, $1,300.00; education, $19,424.35; recreation and community services, $3,650.00; debt charges, $11,344.22; capital expenditures, $6,800.00; health unit, $1,000.00; contingencies, $1,255.09.

Lac la Biche To Have Music Teacher

Our children shall have a music teacher! That was the resolve of 28 members of the Lac la Biche Home and School Association who gathered to discuss this need after the regular meeting April 25. Their first move was to select a committee of five who would take the initiative in securing a teacher.

This committee consisting of Rev. R. S. H. Greene, chairman; Mrs. J. Booker, secretary; Mrs. J. Breau, Mrs. J. Stewart and Mr. M. Maccagno, M.L.A., met at St. Andrew's Rectory on Monday, April 28. There they drew up a concise questionnaire which should show clearly what instruments appeal to our children and how many students a teacher might expect.

Within the next few days, the ladies on the Committee will be contacting every household in town, while Mr. Maccagno has made it his responsibility to see that the parents of all children being bussed in also have an opportunity to show their interest. Results will be tabulated when the Committee meets again on Monday, May 5.

WI ANNOUNCES BINGO WINNERS

Prize winners at the W.I. bingo held May 1 in the Aurora Theatre were: first, hostess chair, Mrs. F. A. Coutney; second, hostess chair, Mrs. Hamar; third, blanket, Mrs. F. Expect Board Decision Late May After Lac La Biche Survey Made

By KEN LARSON

LAC LA BICHE —The Alberta Wheat Pool will decide later this month whether or not it will build a grain elevator here, following a visit to the area by a two-man delegation to study the need.

G. L. HARROLD . . . area study

Acting in response to a brief presented by the Lac la Biche Chamber of Commerce, the Pool said its representatives will take a look at acreages in the district, new road patterns and any other factors which may affect crop production and grain deliveries at the point.

"It's expected a decision will be reached at the next meeting of the Pool's board of directors later this month," a spokesman in Calgary said this week.

Appointed to study the need of a second elevator here — a one-elevator town for the past 32 years — are G. L. Harrold, chairman and director for the district, and John Lund, the Pool's travelling superintendent for the district.

With the promise of extensive development of the North before it, the Lac la Biche Chamber said in its brief that the district "expects an increase of 50 per cent in grain acreage in the very near future."

Michael Hamar, Chamber president, and Michael Maccagno, Liberal MLA for Lac la Biche, presented the brief which observed that "today with a town population of 1,200 and a cultivated acreage of 26,972, we still have the one same elevator we had 32 years ago when the population was 350.

"Farmers face the necessity of hauling their cash grains great distances, up to 50 miles in order to dispose of their product.

"Permits in 1957 totalled 195. But many permit holders presently classified as belonging to other points would and should belong to Lac la Biche.

"In other words, with additional elevator capacity, many more producers would make Lac la Biche their delivery point which would be most logical, inasmuch as that town is already the recognized educational, medical, recreational and business centre for a very large

Rink Committee Reports Bank Balance

LAC LA BICHE — The Skating Rink Committee met at the home of Rev. R. S. H. Greene, April 23, for a business meeting. The financial and expenditure report by the secretary, Mrs. Hamar, was read and showed a good bank balance with which to end the year.

Plans were made to improve the skating rink. They included enlarging and painting the rink, dressing rooms and installing proper underground wiring for better lighting. These improvements will be carried out during the summer months.

The committee wishes to express its thanks once again to all the clubs who donated so generously to the skating rink, and for the fine co-operation from so many citizens which contributed toward making the past season a successful one.

McMurray Road Brief, Rural Electrification Discussed By Provincial Power Commissioner

LAC LA BICHE — A meeting of importance to all residents of the Wandering River area was held in the community hall last Friday evening, when J. D. McGregor, provincial power commissioner, and Stewart Anderson, of the Farm Electric Services, were the chief speakers.

Mike Maccagno, M.L.A., was also present along with a number of members of the Lac la Biche Chamber of Commerce.

Nick Fedorchuk, acting as chairman of the meeting, called on Mr. Maccagno to outline the purpose of the meeting and introduce the speakers and guests. Subjects dealt with were, local roads, electric power, and organizing a board of trade.

Mr. Maccagno gave a summary of a brief, which the Lac la Biche Chamber of Commerce had presented to the McGregor Royal Commission on Northern Development, of which Mr. McGregor was Chairman. The brief showed that the Chamber of Commerce had recommended a road to McMurray via Wandering River, development of the Lac la Biche district as a resort area, and construction of a dam at the mouth of the La Biche river. Mr. Maccagno then read from portions of the Commission's report respecting these items, showing that the commission's recommendations were almost exactly as had been recommended by the Lac la Biche Chamber.

Mr. McGregor then took the platform, complimenting the delegation from the Chamber of Commerce, for the clear picture they had presented of the needs of the North. The brief had been comprehensive and well supported by facts. Speaking of rural electrification, the speaker stated that the service was provided to farm communities strictly at cost, stressing the fact that no profit was made in either the construction or operation of the system. Expenses of construction and maintenance etc. over the whole Province are pooled to provide for a uniform rate of .02c per kilowat hour. Construction costs payable by each farmer joining the Rural Electrification Association, known as the R.E.A., are fixed at $1,370, which is about the actual cost when eight tenths of the farmers in an area join.

The Secretary of the local R.E.A., Mrs. Sundlie, reported that only 20 farmers had signed up for the Wandering River line, and the required number before the plan could be preceded with was 35. The meeting was told that crews are

Four Confirmed By Bishop Of Athabasca At Grassland Church

The Church of the Holy Trinity in Grassland was well filled at 8 a.m. on a recent week day morning when the Right Rev. R. J. Pierce, bishop of the Anglican diocese of Athabasca arrived to administer the sacrament of confirmation.

Bishop Pierce, who made the visit immediately prior to his departure for the Lambeth Conference to be held later in London, Eng., was accompanied by his chaplain, the Venerable James Whittles, Archdeacon of Athabasca. Present was the Rev. Bernard Hart, B.A., L.Th., priest in charge of Holy Trinity Church. The Rev. R. S. Greene, B.A., L.Th., rural dean of Athabasca Deanery and priest in charge of St. Peter's Mission, Lac la Biche, read the preface. The Rev. J. G. Gibbons, rector of All Saints Church, Athabasca, was in the chancel.

The candidates resplendent in confirmation dress, were Mrs. Dolor Shank, Miss Verna Shank, Miss Dolores Shank, Master Lawrence Shank, Master Terrance Shank and Miss Irmgard Shendzielorz.

After the confirmation, the candidates, Bishop and clergy were entertained at a reception given by the Women's Auxiliary of Holy Trinity Church.

Bishop Pierce will be absent from the diocese throughout the summer, while he attends the Lam beth Conference. This conference meets every ten years at Lambeth Palace in London, Eng. and is attended by some 400 bishops from the Anglican Communion in every part of the globe. Its chairman is the Archbishop of Conterbury, Dr. Geoffrey Fisher[illegible]

Health Unit Quarterly Report

The Athabasca Health Unit report from Jan. 1 to March 31 is contained below:

Board Members — V. Breckenridge, representing Ward 2 in M.D. No. 103; Mrs. T. McLean, vice-chairman, representing the Town of Athabasca; H. E. Carran, representing Ward 5; P. A. Leriger, representing Ward 6; G. Fleming, representing Ward 3 in M.D. No. 103; M. Maccagno, representing ID No. 102 and the town of Lac la Biche; R. Preece, secretary-treasurer.

Present Staff — Dr. Hugh M. Brown, M.B., B.S., D.P.H., L.M.C.C., medical officer of health; Miss Beryl Tiffin, B.Sc., D.P.H.N., Miss Valerie Stan, D.P.H.N., Mrs. D. Patry, R.N., public health nurses; Edward Almond, C.S.I. (C), sanitary inspector; Miss Olga Saley, steno-technician.

Municipal Nurses—Miss Laura Attrux, D.P.H.N., Slave Lake; Miss Janet Gavigan, R.N., Smith; Miss Ivy Noonan, R.N., Breynat; Mrs. Elizabeth Piquette, R.N., Plamondon; Miss Bertha Putz, D.P.H.N., Kinuso; Miss Barbara Ann White, R.N., Calling Lake.

Staff Changes—We were happy to secure the services of another nurse, Mrs. Dorothy Patry, who joined us in the middle of February to assist Miss Beryl Tiffin at our Lac la Biche office. We hope shortly to have two public health nurses at the Athabasca office and two at the Lac la Biche office.

In-Service Education — Our monthly meetings were continued during this quarter. Three meetings were held and the main topics under review were: The Public Health Significance of Milk; Preventative Dentistry; Nutrition.

Communicable Diseases—Mumps and Rubella were prevalent throughout the area. Louse infestations caused us considerable concern in some areas.

Tuberculosis — A considerable amount of time was spent on bringing our records and filing system up to date. Nearly four hundred people were skin tested for tuberculosis, most of them by the Mantoux method. Forty-eight persons were inoculated with B.C.G.

Venereal Diseases — These diseases continue to be a big problem in some of our areas. Mr. Ronald Almond, R.N., from the Division of Social Hygiene, spent several weeks in the Lac la Biche area campaigning against venereal disease. It is hoped that he will be able to conduct epidemiological investigations in the Slave Lake area in the near future.

Immunizations — A total of nearly five thousand immunizations were carried out against poliomyelitis, diphtheria, pertussis, tetanus, smallpox and influenza. There are many adults who have not yet taken advantage of the poliomyelitis immunization program. It should be realized that this vaccine is available to all up to the age of forty years. A public health procedure of this type requires the whole-heated co-operation of the public.

Nutrition — Repeated questioning during the past year has revealed that only a small proportion of children are receiving a dietary supplement of Vitamin D. This vitamin is essential for the proper development of bones and teeth and is not obtainable in sufficient quantities in our ordinary Canadian diets. Because of this, a scheme was introduced by which supplies of Halibut liver oil capsules are made available at a reduced cost.

Health Education — Home and School organizations and classes in school were addressed during the quarter. A number of newspaper articles were published. There was one radio presentation. We should like to express our gratitude to the editors of the newspapers concerned and the radio station for their co-operation.

School Health Examinations — The director conducted routine health examinations of the children at the following schools: Lac la Biche, Hammond, Chisholm Mills, Ellscott, Boyle, Plamondon, Caslan, Caslan Colony, Colinton, Rochester, Philomena and Kikino. Some of these schools were visited more than once. A total of 297 children were inspected. Dental caries was found to be the most prevalent disease. There was found to be on the average of five carious teeth per child. Approximately one in ten of the children were free of dental decay. When considering these figures it should be realized that no dental mirror or probe was used and of course no

Vina Richard Pledges Vows

LAC LA BICHE MISSION — Miss Vina Richard and Mr. George Cloutier exchanged marriage vows at a ceremony which took place, April 14, at Ste. Philomene church.

Rev. Father Levert officiated at the ceremony.

The bride is the daughter of Mr. and Mrs. D. Richard of Normandeau.

The groom is the son of Mr. and Mrs. Ephrem Cloutier.

Given in marriage by her father, the bride wore a powder blue suit and white hat, and carried a bouquet of white lilies. Organist was Rev. Sister St. Gratien.

Following the ceremony a reception was held at the home of the groom's parents. Rev. Father Levert proposed a toast to the bride, to which the groom responded.

The happy couple left for a short honeymoon trip to Calgary and Banff. They will make their home on their farm across the lake.

McRae

Mr. and Mrs. Kenneth Littlechild of Edmonton visited the home of Mr. Littlechild's parents recently. His sister, Mrs. P. Erasmus, returned to Edmonton with them and spent a week visiting relatives there.

Miss Kathy Abramie, employed at Lac la Biche Hospital, has been at home a few days.

Mr. and Mrs. M. Karpyshyn of Briereville were guests of Mrs. Karpyshyn's parents.

John C. Whitford has gone to Edmonton to seek employment.

Mrs. C. Littlechild spent several days at Smoky Lake, the guest of her mother.

Mrs. Edith Whitford and son Jack have moved to Briereville & at present are staying at the home of her daughter, Mrs. Frank Whitford.

Mr. and Mrs. Paul Kuzma of Edmonton were weekend guests at the home of Mr. Kuzma's parents.

Mr. and Mrs. Jack Ransom and family of Ashmont visited Mr. and Mrs. W. Karpyshyn recently.

Robin Littlechild has returned to Willingdon where he is employed by Mike Asani.

Mr. and Mrs. N. Katherenchuck have returned to their farm here after spending a year on a farm in Briereville district.

Regulations require the front door of McRae hall to be doube and to open outwards. This will be done by Ray Whitford before the hall is used again.

Despite the cold weather and intermittent snow the farmers have begun to pick rock from their fields.

x-ray. With these further adjunets no doubt the figures would be much worse. The vast majority of the children examined were in the six to seven-year age group.

Sanitation Report

Lumber Camps — During this quarter the greater part of our time has been spent on the inspection of lumber camps. There has been very little done in the past to improve conditions in these camps. We had records on about six. It was only as the winter progressed that we began to realize the magnitude of the operations and the problem confronting us. In all we located 27 camps. They are situated in our northern territory, viz.:Calling Lake, Lesser Slave Lake and Heart Lake. While some few have come close to the requirements of the regulations the majority have failed badly.

Among conditions found have been bunkhouses without windows or ventilation, no toilets, overcrowding, food stored in unsanitary conditions, filthy bedding, inadequate kitchen equipment, no bathing facilities, cracked cups and dishes, unprotected water supplies, unprotected water storage, drinking water—an open pail with one dirty cup to dip it out with and general filth.

Charges have had to be laid against two operators os such degrading and squalid conditions as we have found cannot be allowed to persist. An out of sight out of mind attitude does not lend itself to a public health policy.

During the inspections of these camps extensive use has been made of the four-wheel-drive Willys station wagon owned by the Health Unit. Without this vehicle much of this work would not have been possible. It is highly unlikely that an ordinary car would have withstood the rough and broken trails.

Restaurants—While most of our restaurants operating in our territory come up to the required standards, a few continue to present problems. It became necessary to issue closure orders on two restaurants during this quarter.

Milk — One of our dairies was asked to close when an inspection revealed that the milk house had not been used for some time—all utensils were being cleansed in the kitchen. At the time of the inspection the utensils were sharing the floor with three cats and two dogs.

Record of Inoculations—Inoculations (DPT and DT), 1,775; Vaccinations (Smallpox), 349; poliomyelitis vaccine, 3,745; flue vaccine, 22; B.C.G., 48; penicillin, 2; liver injection, 2; T.A.B.T., 1.

Tuberculin tests—Mantoux, 354; Patch, 16.

Home Visits made—663.

Epidemiology — Rubella, 175; Measles, 12; Streptococcal sore throat, 15; Jaundice, 1.

Health Education—School health talks, 4; other health talks, 6; films shown, 12; Doctor's examinations of school children, 297.

Sanitation Statistics

Interviews, 34; restaurants, 22; butchers, lockers, slaughterhouses, 1; private premises, 2; schools, 5; camps (industrial and lumber), 29; camps (trailer and tourist), 3; waste dsiposal grounds, 1; complaints justified, 4; complaints not justified, 2; sewage disposal, 2; nuisances, 3; notices, 5; water samples (chemical), 4; (bacterialogical), 20; dairies (plants and farms), 5; restaurant closure orders, 2; council meetings, 1.

Couple Honeymoon In Ontario

LAC LA BICHE MISSION—The Rev. Father Romeo Levert, O.M.I., performed the double-ring ceremony for Miss Rose Gertrude Bourque, daughter of Mr. and Mrs. H. S. Bourque and Mr. George Usher, son of Mr. and Mrs. Joseph Usher of Weston, Ontario, in St. Joseph Academy.

The bride was given in marriage by her father. She chose a light blue suit with white accessories and a corsage of white carnations.

Attending the bride was her sister Theresa. She wore a light beige suit with white accessories and corsage of pale yellow daisies.

Mr. Oscar Bourque, brother of the bride, attended the groom as best man.

Following the ceremony, 30 relatives and friends attended a reception at the home of the bride's parents.

For her daughter's wedding, Mrs. H. S. Bourque chose an afternoon dress of navy silk and a corsage of pink roses and lilies of the valley.

The bride's table was covered with a cloth of white lace. It was centered with a three tiered wedding cake flanked by tall tapers.

Mr. J. L. Bourget proposed the toast to the bride to which the groom responded.

Later the couple left on a honeymoon trip to Weston, Ont.

McMurray Road Brief Rural Electrification

(Continued from Page 1)

working in the Hylo-Venice area, and if sufficient signers could be obtained for the Wandering River project, construction crews and equipment could be moved into the district as soon as work is completed in the neighboring districts, thus allowing for a sooner start than could be expected if these crews and equipment were to move to some other part of the Province. Mr. McGregor warned that easements must be secured, brush had to be cut, much paper work and details seen to, after the 35 signers were secured, making it important that no unneccesary time be lost now. He said it was quite possible that the district could have lights by next Christmas if action was prompt and favourable as he felt sure it would be.

Mr. Stewart Anderson gave a detailed description of how rural electrification systems are financed and operated. In his talk and in the answers given to questions from the audience, it was evident that he was well acquainted with the local settlement as well as rural electrification throughout the Province.

At this point Mr. McGregor and Mr. Anderson asked to be excused and the meeting expressed their hearty thanks to these busy men for their help in getting the rural electrification program under way.

Mr. Maccagno then spoke on behalf of the Lac la Biche Chamber of Commerce, asking for the co-operation of the Wandering River farmers in an effort by the Chamber to interest a second elevator company in locating in Lac la Biche. Some farmers complained that roads leading to Lac la Biche were often unfit for the hauling of grain, otherwise they would prefer to market grain at that point. By a unanimous vote the meeting went on record as favoring the construction of a second grain elevator at Lac la Biche.

Speaking as M.L.A., Mr. Maccagno then dealt with the matter of formation of an Advisory Committee for Local Improvement District No. 102, stressing the importance of appointing a member from the Wandering River District. Such a member would be able to give valuable assistance to the various government departments concerned in the administration of Local Improvement District affairs. The meeting unanimously approved the forming of an advisory committee.

The chairman then spoke in favor of the Wandering River district forming a Board of Trade, and Mr. Maccagno supported the suggestion with many examples of achievements brought about as a result of recommendations of the Lac la Biche Chamber of Commerce. While the meeting was keenly interested in the proposal, it was considered best to defer the actual organization until a meeting arranged for May 9, at 8:00 p.m. The Lac la Biche Chamber of Commerce President, Mike Hamar, assured the meeting that any assistance which could be given by the Lac la Biche group in organizing such a body, could be counted upon.

It is expected that before the next meeting is called, the necessary number of signers for the R.E.A. will be in the hands of the secretary.

About 80 people were in attendance at the meeting.

Board's Decision Expected Late May

(Continued from Page 1)

part of the north. If all the producers within the reasonable radius of Lac la Biche were to make their deliveries at that point, the number of permit holders might well increase by 300 per cent."

Chamber president Michael Hamar in presenting the brief said that "grain production is increasing. In former years most cultivated land was supporting forage crops but the trend is definitely toward cereal crops and large acreages of wild land still await the breaking plow.

"Grain growing and grain marketing are expanding industries in that section and all estimates anticipate an increase of 50 per cent in grain acreage in the very near future."

"It seems totally inconsistent," the brief pointed out, "that the town which is a centre for fishing, fur farming, lumbering and all other commercial activities in that area — and which has the only banks for 50 miles in any direction — should not be the delivery point for all the grain grown for sale thereabouts.

"The construction of more elevators would be a service to northern agriculture and a profitable investment for those who backed it."

The brief quoted Canadian Wheat Board statistics for 1957 which showed permits numbering 195: wheat 4470 acres; oats, 5783; barley, 5621; summerfallow, 5094; forage crops, 5218; uncultivated land, 35,954 acres, making a total of 62,926.

TOWN MILL RATE SET AT 51 . . .

(Continued from Page 1)

Councillors had at first placed higher figures on certain matters, but it was found that either the mill rate would have to be raised by several points or certain seemingly important items would have to be drastically cut or eliminated altogether. As it was felt that the mill rate should not be raised if it could possibly be avoided, some estimates were sliced in order to balance expenses with estimated income.

It had been hoped that a sum could be provided to purchase a plot of land in preparation for the building of an Old Folk's Home at some future date, but this was temporarily set aside.

On the revenue side of the balance sheet, income from taxes is expected to be somewhat higher than the previous year due to a number of new buildings being added to the assessment roll. Government grants are also expected to be higher than in any previous year.

One item of revenue which will be missing this year is the minimum tax, commonly known as Poll Tax. This tax was abolished by Provincial Legislature during the recent session. Last year the revenue from this source was $440.

With the cost of goods and services increasing over the past number of years and the town growing in so many respects, councillors felt that in a time when the trend is for higher taxes, the fact that the rate has been kept at 51 mills for three years, and has not exceeded 52 mills for the past eight years, is not a bad record.

Couple Celebrates 40th Anniversary

BOYLE— Mr. and Mrs. James Harris of Bondiss celebrated their 40th wedding anniversary April 26.

A party was held in the evening when relatives and friends from Edmonton, Paxton, Ellscott, Boyle and Bondiss assembled to extend congratulations to the honored couple.

A beautiful gift was presented to Mr. and Mrs. Harris who expressed their thanks to the guests.
